

**Information and Communication Technology (ICT)
Standing Offer Arrangement Conditions**

Deed of Agreement

**For the provision of
Products and/or Services**

Version 001 – dated 11 April 2008

Introduction

In 2007 the Department of Public Works undertook a major review of all the procurement terms and conditions to incorporate any new legal and legislative requirements on specific issues. This review also aimed to ensure that the conditions adequately address specific and emerging procurement practices and trends. Industry is very supportive of a single set of terms and conditions across Government as this reduces the costs of the tendering and contractual processes.
