DEVELOPMENT APPLICATION GUIDES

Purpose

To inform building certifiers of the publication of Guides to assist in the completion of Development Application Form 1.

Commencement

The new Form 1 for applications lodged under the Integrated Development Assessment System (IDAS), commence for use across Queensland on 14 August.

By now, all local governments and private certifiers businesses should have received the Forms “kit”. These contain black and white copies of the forms, a compact disc containing electronic versions of the form, and a suggested notice for advising customers about the implementation and commencement of the forms.

To support the new form, a set of guides and a customer service poster have also been created. Copies of the Guides are being provided to all local governments and private certifier businesses. Private certifiers within local governments will be able to access the Guides through their local government.

The full set of guides, the poster and the application form are also available on the Department’s web site at:

www.ipa.qld.gov.au

A copy of the Guides should be made available along with development application forms, to clients who are not familiar with the development application process. For the majority of building applications, only Guides 1 and 9 will be required.

If you have any questions regarding the guides, poster or form, please contact John Lamb on telephone (07) 3237 1712, or through email at john.lamb@dcilgps.qld.gov.au
