Queensland Housing Strategy 2017-2027

“Every Queenslander has access to a safe, secure and affordable home that meets their needs and enables participation in the social and economic life of our prosperous state.”

Partnering for Impact and Partnering for Growth are the key initiatives which will drive our partnership with the homelessness and community housing sectors and the private sector.

Partnering for Growth and Partnering for Impact

Partnering for Growth

Person-centred, place-based housing response

Increased housing supply

New operating framework

Partnering for Impact

Delivering person-centred housing responses

Strengthening the service system

Expanding our capabilities

Partnering for Impact

Partnering for Impact will drive the revitalisation of the homelessness service system.

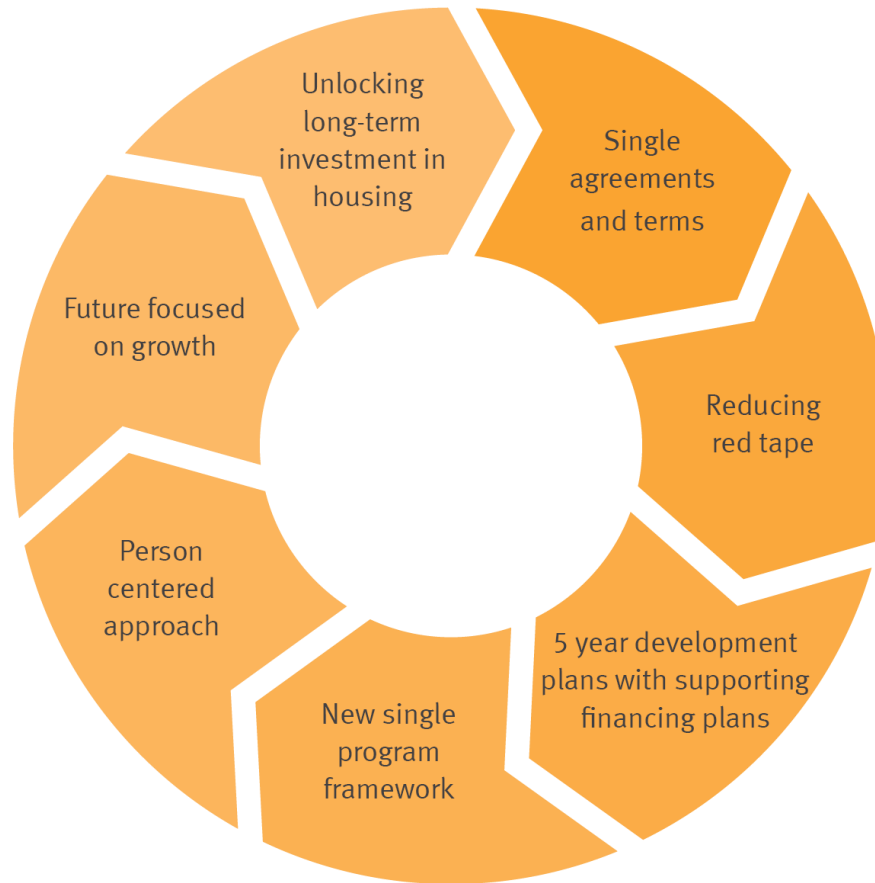

Broaden partnerships with the homelessness sector and provide existing service providers and their workforce with **certainty and stability** required to ensure service continuity and generate innovation to **revitalise homelessness responses**.

Partnering for Growth

Partnering for Growth will drive the growth of community and affordable housing as part of the Government's commitment to deliver over 5,000 new social and affordable homes within 10 years.

Our commitment is to partner with the registered community housing sector to deliver new affordable and community housing that reduces the gap between social housing and private housing, funded and delivered through better use of existing program funds and enabling organisations to leverage project financing.
